Summary

Full Stack Developer and B.Tech Information Technology student at Jadavpur University with experience building **production-level MERN applications from scratch**. Strong skills in React, Node.js, Express, MongoDB, REST APIs, and Git workflows. Proven ability to collaborate in startup environments and deliver scalable, real-world solutions.

Technical Skills

Frontend: HTML, CSS, JavaScript (ES6+), React.js

Backend: Node.js, Express.js, REST APIs

Database: MongoDB

Programming: C++, Data Structures and Algorithms

Tools: Git, GitHub, Vercel, Netlify

Experience

Full Stack Developer Intern (MERN) — Paid Internship Oct 2025 – Present
BAE AI — Remote

- Built key features **from scratch**, including landing pages, application pages, Voice Assistant, and AI Shopping Assistant.
- Collaborated directly with the CEO and CTO to translate business requirements into technical solutions.
- Developed reusable React components and integrated backend APIs following professional Git workflows.

Live Product: <https://bae.cx>

Projects

BAE AI — Production Platform

<https://bae.cx>

Developed a production-grade MERN platform with AI-driven features, focusing on scalability, performance, and maintainability.

JU Social Media Platform

<https://ju-social-media.vercel.app>

Built a full-stack social media application with authentication, posts, REST APIs, and MongoDB integration.

Procrastinot (Productivity Platform)

<https://cholo-somoy-bachai.vercel.app>

Developed a productivity platform with focus rooms for group study and an AI-powered study timeline planner.

Open Source & GitHub

Active GitHub contributor with experience in collaborative development, pull requests, issue tracking, bug fixes, and clean code practices.
